

SNI - ULTRASONIC THICKNESS TRANSMITTERS – Wireless or Hard-Wired Transmitters to remotely monitor Corrosion and Erosion in Pressure Vessels, Piping and Pipelines. Eliminates costly NDE programs via remote or local monitoring of critical wear areas.

PALADON - ELECTRO HYDRAULIC ACTUATORS - for Gate Valves and Ball Valves where limited power supplies are available to operate the valve. Comes in Class 1 Div. 1 or 2 options in 110 VAC or 24 VDC with Solar Options.

ARGUS AUTOMATED MULTI PIG LAUNCHING VALVES – API 6D Licensed and Monogrammed Pigging Valves - Typical applications are include:

- Difficult to access remote installations
- high pigging frequency in wet gas lines
- CO₂ or H₂S is present and eliminates suiting up
- Emission sensitive areas where venting reductions are required

TEK TROL – Flow Meters and Pressure Transmitters including Coriolis, Orifice Plate, Mag Meter, Vortex as well as Differential Pressure and Pressure Transmitters all in Explosion Proof Area Classifications.

SAMSON CONTROL VALVES – Offer a wide variety of valve types including Globe, Plug, Ball, Segment Ball, High Performance Butterflies with various Positioners and Actuators.

FISHER CONTROL VALVES – Your number 1 source for High Quality Remanufactured FISHER Control Valves, Regulators and Positioners

STARK SOLUTIONS – Closures offered in Threaded S-500, Clamp S-2000 and Internal Door S-3000 Quick Opening Closures provide customized solutions for the industry. Stark offers the best closure style based on application, location and frequency of usage.

CDI - PIG SIGNALER's – Directional Pig Signaler, Boss Mounted with Visual Flag, Electrical Contact, Combination Flag and Electrical as well as Non-Intrusive Magnetic Options.

GIRARD - Foam Polly-Pigs, Steel Mandrel Pigs, Polyurethane Spheres, Solid-Cast Turbo Pigs and Spare Urethane Cups & Discs all manufactured by Girard at their plant in Houston, Texas.

MODEC – Portable Actuators including Battery Powered Electric, Pneumatic and Gas Powered options. Available in output torques up to 740 FT LBS with right angle and straight adapters to fit all valve and gear handwheels.

SCV - API 6D GATE VALVES - Thru Conduit Expanding and Slab Gate Valves. 2" – 36" Class 150 - 1500. API 6D Licensed with monogram, API 607/6FA, NACE MR-0175, ISO 9001. Available with Handwheel, Gear or Actuated.
